

## Today's Managed Care Program

## The Next Generation of Managed Care

The SPBM will be a **specialized managed care organization** contracted with ODM to administer Ohio Medicaid's prescription drug program

For years, ODM and stakeholders **identified problems** such as pricing, rebates, claw backs, fees, formulary, inaccessible data, contract steering, access to rural pharmacies, and dispensing fees.

By directly contracting with ODM, the SPBM will provide ODM greater ability to monitor **quality, transparency and accountability** in the pharmacy program

Unbundling core functions of the Pharmacy Benefit allows ODM to **identify and eliminate potential conflicts of interest**

With **timely consistent information** to each of the MCOs, **quality care** can be provided to all Medicaid members

The SPBM will **increase data accuracy** and timeliness, supporting program integrity, quality, and pay-for-performance initiatives

## WHO IS RESPONSIBLE?

	MCO	OHIO MEDICAID		
		ODM	SPBM	PPAC
Pharmacy reimbursement and benefit design	●			■
Pharmacy benefits manager oversight and auditing	●			■
